Dear Sir:

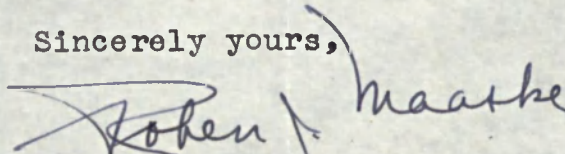

Following a conversation recently with Mr. Ben W. Cherrington, Chief, Division of Cultural Relations in the Department of State at Washington, he gave me your name as one who is very much interested in the field of adult education in Brazil.

I have had considerable experience in Adult Education in this country, having served as one of our state directors of Adult Education, and am now teaching courses in that field at the University of North Carolina. It would be a real pleasure to me to learn more about the Adult Education in your country. In that connection I am wondering whether you would be kind enough to send me some information concerning each of the following points:

- + (1) Nature of the adult education program in your country
- (2) What are the future prospects for the development of such a program, and what directions is it likely to take?
- (3) In what way is adult education financed in your country?
- (4) What are some of the unique characteristics or practices being followed successfully in your program of adult education? +

If you have any materials describing or explaining your program, I would be very appreciative if you might find it possible to send me some of them.

Sincerely yours,

Roben J. Maaske
